WHY RYOSHI'S VISION?

We are the only official RYOSHI'S VISION that has a partnership with, and is a part of the Shiba Inu ecosystem.

Ryoshi, the founder of the Shiba universe, had a dream: an entirely decentralized token, run by the people, for the people. In honor of the great Ryoshi, we have taken his vision and made it more powerful than ever!

WHY ETH?

RYOSHI'S VISION is built on top of the Ethereum blockchain as an ERC-20 token. Our choice to launch Ryoshi's Vision on Ethereum aligns with Ryoshi's vision of being truly decentralized.

HOW-TO BUY

GENERAL INFORMATION

RYOSHI'S VISION can only be bought on the Ethereum Blockchain.

While MetaMask and Coinbase wallets are the only two officially recognized wallets on Shibaswap, investors can import Trustwallet to MetaMask if they want to use and take advantage of Shibaswap.

We never DM first!

Play safe, play smart.

HOW-TO BUY

STEP-BY-STEP

Follow the Link to SHIBASWAP:

<https://shibaswap.com>

Connect your wallet

If you have never used Shibaswap before, you will need to APPROVE the ETH transaction first.

Enter the amount of ETH you want to swap to RYOSHI's VISION.

Slippage

To help ensure that you don't experience any issues when setting up the order, especially when volatility is high, please set your slippage to 1-3%. We recommend 2.5%, particularly in periods of high volatility.

Gas

Select your appropriate fee for a slow, average or fast transaction. We recommend average or fast. This is to ensure that the transaction has a better chance of processing when the network is congested, and helps to avoid failed transactions and loss of ETH. If you are unsure what to do, please reach out to us in our official TG (Telegram Group) account: <https://t.me/RyoshisVision>

Swap ETH to RYOSHI's VISION. Please make sure you also have enough ETH to cover the fees.

SHIBASWAP - SWAP

1. Check address

2. Enter the amount of ETH you want to swap to RYOSHI's VISION.
